

*Journey Without A Map, Donna Caruso*

*Midwest Book Review*

Every culture is different and their people have different experiences. *Journey Without a Map: Growing Up Italian* is Donna Caruso's reflections on growing up in what many would call a traditional Italian family. Fueled by food and tradition, her reflections cover the experience as a whole including the folk wisdom of her old-fashioned parents that gave her the strength to fight her bout with breast cancer. *Journey Without a Map* is a must for anyone who wants to understand the Italian people.
